

1. Create a “scrambledEggs.html” document. Use ordered and unordered lists. Your code should produce the same results as the bottom image.

## Scrambled Eggs

Eggs are one of my favorite foods. Here is a recipe for deliciously rich scrambled eggs.

### Ingredients

- 2 eggs
- 1tbs butter
- 2tbs cream

### Method

1. Melt butter in a frying pan over a medium heat
2. Gently mix the eggs and cream in a bowl
3. Once butter has melted add cream and eggs
4. Using a spatula fold the eggs from the edge of the pan to the center every 20 seconds (as if you are making an omelette)
5. When the eggs are still moist remove from the heat (it will continue to cook on the plate until served)

2. As a person learning web development, you should always be looking things up that you don't know. Research some useful websites and create a reference site (Absolute Links) where you list at least 5 reference websites for web design.

3. Create “terminology.html” document of 20 HTML terms. Use Description Lists for the terms and Bookmark links for categories (Elements, Lists, Links, Images, etc.).

4. Create a website for Durango Jewelry and Gem Shop. Refer to the files in lab folder.

- Add a link to the logo image in all webpages so it redirects users to index.html.
- Make sure all links redirect users to their defined webpage.
- Make sure to format all the tax and link all webpages to each other.
- Make sure that email link works correctly.
- Make sure all the content is added. Refer to images below.

Durango Jewelry and Gem Shop pampers you with one-of-a-kind, high-quality wire-wrapped pendants and gems. Our works of art are inspired by natural geometries and the vast beauty of mother nature.

The featured pendant provides these characteristics:

- gemstone is "Smoky quartz" also called a "Soulmate Crystal"
- gemstone is over two carats
- wire is a mixture of antique colored copper and .930 pure silver
- high-quality silver alloy requires very little polishing
- pendant is approximately 4cm x 3cm
